

CUSTOMER OFFLOAD AGREEMENT

Due to contracts through our freight line companies, the Customer and/or erector will be responsible for the unloading of the Building Kit. The Building Kit must be unloaded within a two-hour window of the scheduled arrival time of the load. The Customer will be responsible for making sure the proper equipment for unloading is on the job the day of delivery. ProAm Steel reserves the right to charge an hourly rate of \$95.00 if the scheduled two-hour window for delivery is exceeded. Thank you for your understanding and cooperation, as freight has become harder and harder to book.
